## Overview

Vendor Product Attribute Addon for CedCommerce Multi-Vendor Marketplace developed in Magento 2 allows the vendors to create their own attributes and assign them to the Attribute set being provided to them. The vendors now have the power to manage the functionalities of their Attribute Sets without the intervention of the admin.

The vendor will be able to see only the attributes created by him and can also edit or delete them as well. The Vendor Product Attribute addon is dependent on Vendor Product Addon; therefore, CedCommerce Multi-Vendor Marketplace and Vendor Product Addon should be pre-installed.

## Enable/Disable Vendor Product Attribute

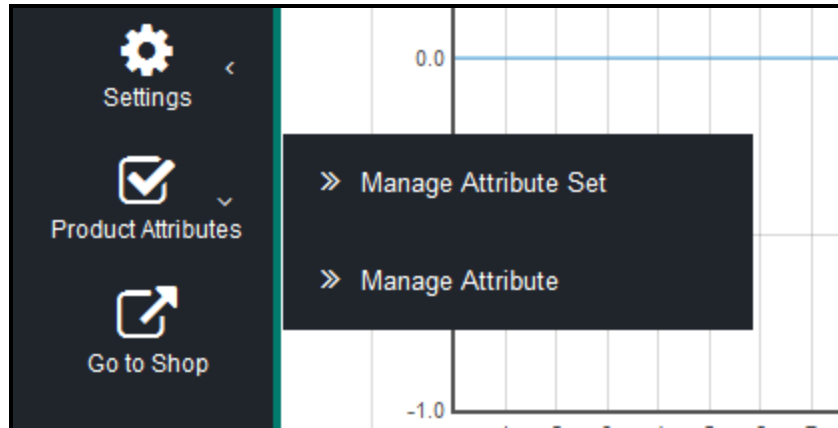

To enable the Vendor Product Attribute Addon, just select “Yes” in the “Enable Vendor Product Attribute System” dropdown and click on “Save Config” button to save the system configuration settings. Selecting “No” will disable the Vendor Product Attribute Addon and its features won’t show up on frontend.

Configuration Option	Value	Scope
Enable Vendor System	Yes	[WEBSITE]
Enable Product Assignment	Yes	[WEBSITE]
Enable Vendor Product Attribute	Yes	[WEBSITE]
Enable Advanced Product System	Yes	[WEBSITE]

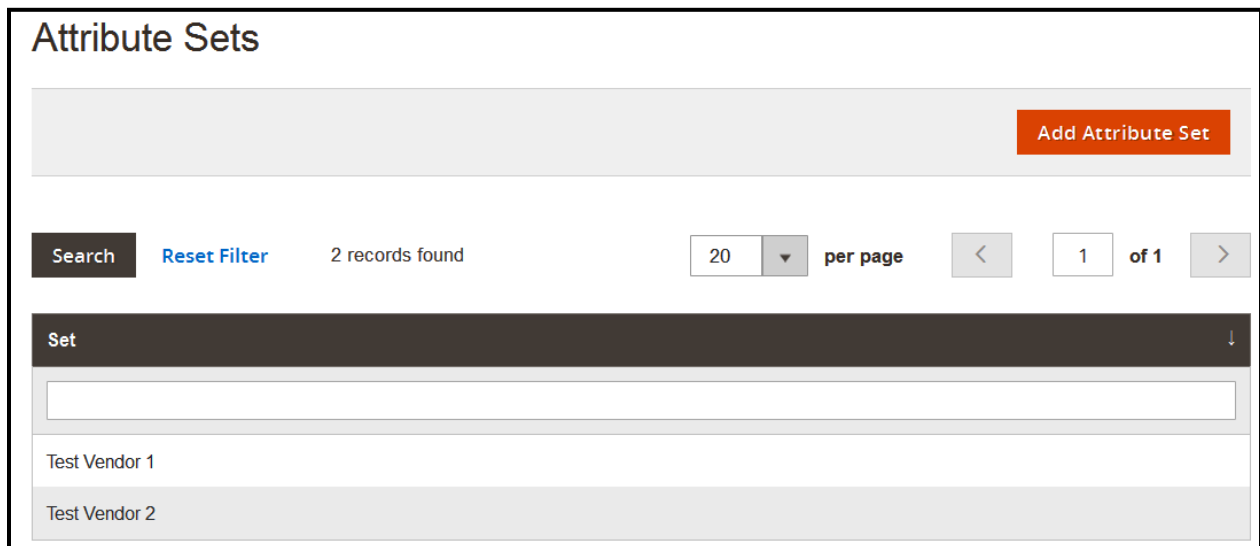

## Vendor Product Attribute Sets

The vendor can create their own attribute sets from the “Manage Attribute Set” section. In “Manage Attribute Set” section, they can see all the attribute sets they have created and can also add new attribute sets if they want.

## i. Create Attribute Set

The new attribute can be created from the vendor panel by clicking on the “Add Attribute Set” button at the top right corner. A form will be displayed.

## i. Create New Attribute Set

### i. Name

Enter here the Name of the attribute set you want to create. This can be any Name you want.

## ii. Based On

Select one of the already created attribute set on which your attribute set will be dependent.

### New Attribute Set

← Back Save

---

#### Create New Attribute Set

Name \*   
▲ For internal use

Based On \*  ▼

## ii. Edit Attribute Set

The attribute being created can also be edited by clicking on its respective row in the “Vendor Attribute Set” grid. After that, the changes to be made can be specified and “Save” should be clicked to save the changes made.

### Edit Attribute Set

← Back Delete Save

---

#### Edit Attribute Set Name

Name \*   
▲ For internal use

## iii. Delete Attribute

To delete the attribute set, the “Edit Attribute” page should be opened and “Delete Attribute” button should be clicked. The attribute set will get deleted.

## Vendor Product Attributes

The “Vendor Product Attributes” can be selected from the left side navigation menu from the vendor panel. A grid will be displayed showing the attributes created by the vendor.
