Overview

CedCommerce Vendor Fastway Shipping Extension is an addon for CedCommerce Multi-Vendor Marketplace developed in Magento 2. This extension is very useful for vendors in case they want to set fastway shipping for their products. This module is dependent on Vendor Multi Shipping Addon. Therefore, CedCommerce Multi-Vendor Marketplace and Vendor Multi Shipping Addon have to be pre-installed. With the help of this module vendor can allow Settings like enable/disable the module and set allowed countries.

Vendor Fastway Shipping extension retrieves live shipping rates from Fastway for your Magento 2 store and eliminates the need to maintain your rates manually. This Shipping module provides Fastway Shipping method for shipping the product in Australia, New Zealand, Ireland, North Ireland and South Africa. Using this shipping module vendor can manage his shipping.

Configuration Settings

The configuration settings can be opened from **Marketplace > Vendor Configuration** in the menu section.

i. Enable Fastway Shipping For Vendor

When set to Yes, vendor fastway shipping will be enabled and vendor will see this option in vendor shipping method panel, otherwise fastway shipping will not be available for vendor.

ii. Enable the Default Fastway Shipping Method

This module is based on the Magento 2 default fastway shipping method. So this fastway shipping method should be enabled by the admin. Admin can enable the distance based shipping method by going to the **Stores > Configuration > Sales > Shipping Method** section. Here you will see the “Fastway Shipping” group and set the “Enabled” field to “yes”. Now the vendor fastway shipping will be available to the vendor and the customer will see the fastway shipping method at frontend.

i. Active

From here the vendors can enable/disable the fastway shipping method for their products. If it is disabled then the rate from the enabled shipping methods (from the admin panel) will be calculated.

ii. Allowed Country

Here the vendor can set the countries allowed for a particular shipping method.

Fastway Shipping on Cart Page

Customer will see vendor wise fastway shipping on the cart page. This module is dependent on Vendor Multi Shipping Addon, so you must install multi shipping beforehand. In the attached snapshot you can see that there are two products in the cart associated with different vendors. Here you will see the vendor “test” has enabled fastway shipping for his products. So the customer will see vendor wise fastway shipping for this vendor. If any vendor has not enabled any shipping method then the customer will get the rates defined by the admin for the vendor’s products.
